## Architectural Craftsmanship

Every inch of our Siding System is meticulously crafted to bring visual harmony to your home.

Robust texture and finish options deliver the perfect aesthetic for any exterior.

Rabbeted Trim and Corners feature a fastening system that hide nail heads and eliminate unsightly caulking.

Exclusive accessories, like RigidMount Blocks, finish the look of protrusions on your home so they go unnoticed.

Entire siding system is precision color-matched so you can be confident in a beautiful end result.

Feel confident in your forever home with products designed to look and perform beautifully.

VERSATILE

# LAP SIDING

Lap Siding with RigidStack™ combines classic charm and practical versatility, seamlessly fitting into a diverse range of design styles. RigidStack™ technology allows the lap to stack and lock together, resisting high winds and making it a reliable choice for those seeking both style and durability.

6" LAP

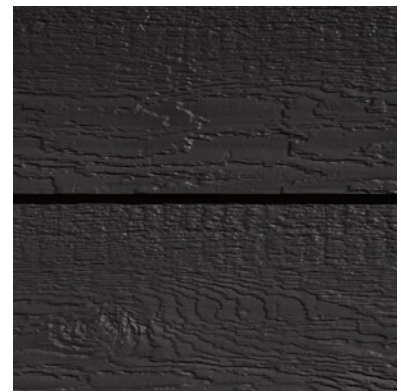

Perfect for small, single-story homes or used as an accent.

8" LAP

The most commonly used size, ideal for any home.

12" LAP

Typically used for larger structures with towering walls.

## ✓ DESIGN TIP

Combine different Lap Siding sizes to create a multi-exposure look on your exterior. This technique gives your home modern character and creates a unique aesthetic.

*Shown: 6", 8", and 12" Sand and Onyx Lap with RigidStack; Onyx EasyTrim Corner*

# TRADITIONAL SHAKE SIDING

Choose Shake Siding with RigidStack™ for a touch of natural beauty and classic style for your home's exterior. Shake siding's rustic appeal adds warmth and authenticity to your home's look, making it stand out with a captivating charm.

---

## STAGGERED EDGE

Features a distinct, offset layout for an authentic cedar shake look. Available in 7", 9" and 12" profiles.

## STRAIGHT EDGE

A contemporary approach to cedar shakes that boasts a streamlined look. Available in 7", 9" and 12" profiles.

## SCALLOPED EDGE\*

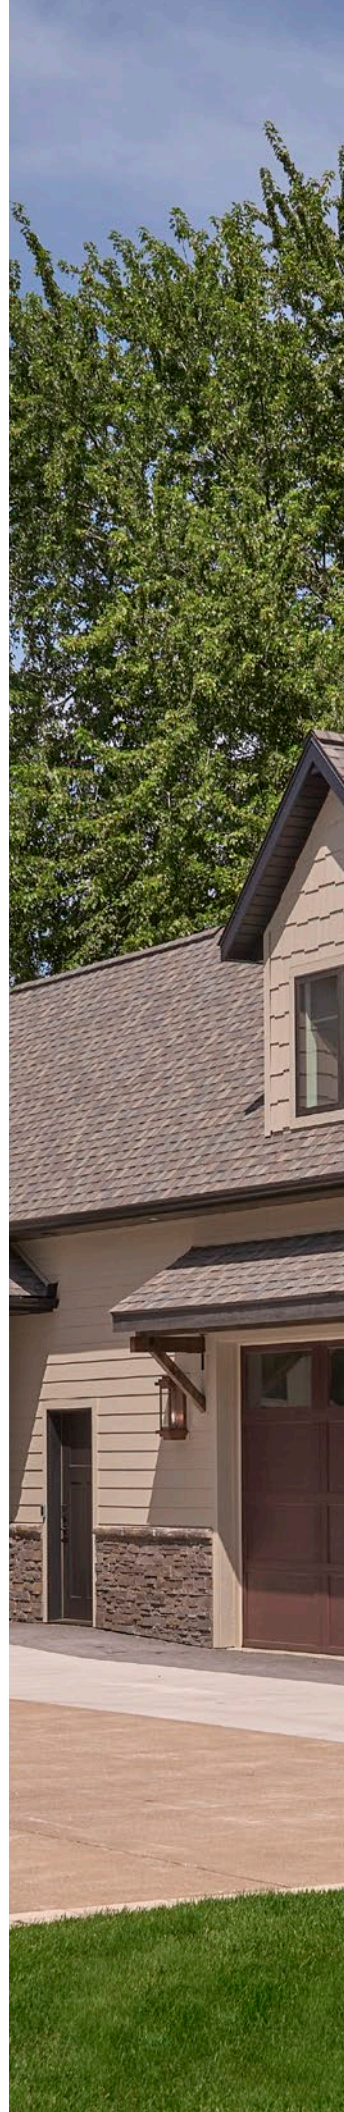

Whimsical flair can help transport your exterior to the Victorian age. Available in 12" profile.

## OCTAGON EDGE\*

Neatly sculpted rows that fit Craftsman and Cape Cod Architectural styles. Available in 12" profile.

TIMELESS

# BOARD & BATTEN SIDING

With clean lines and minimalistic detailing, Board & Batten siding gives any home exterior a fresh, updated look. Its vertical lines convey elegance and height, while the combination of panel and trim adds depth.

## NARROW SPACING

Narrow spacing, where battens are placed every 12", is best used on compact walls.

## WIDE SPACING

For larger, expansive walls, battens can be paced every 16" for a streamlined look.

### DESIGN TIP

Use Board & Batten Siding to create accent walls on various parts of your home's exterior, such as the entryway. This can add visual interest and break up large expanses of siding, especially on homes with a minimalist design.

*Shown: White Board & Batten*

*Shown: Coffee Board & Batten, Trim, and Corners; Canyon Lap with RigidStack, Trim, and Corners*

## MODERN

# PANEL SIDING

Panel siding offers a clean and modern aesthetic that appeals to contemporary design sensibilities. Its sleek, understated appearance gives homes a fresh and updated appearance, making it a popular choice for those seeking modern curb appeal.

### NO GROOVE

Provides a streamlined modern, appearance.

### 8" GROOVED

Creates subtle interest in traditional applications.

### 4" GROOVED

Increased visual interest ideal for rustic applications.

### ✓ DESIGN TIP

Use Panel Siding combined with other siding profiles or materials, such as stone, to create a visually dynamic facade. Mixing textures and finishes can add depth and complexity to your home's exterior, giving it a custom look that's sure to stand out.

*Shown: Onyx Panel and Lap Siding with RigidStack, Chestnut Panel*

# CONTEMPORARY NICKEL GAP

Nickel Gap siding replicates the look of classic shiplap, delivering a timeless design. The narrow gaps between boards create clean, defined lines, adding a subtle shadowing effect that enhances the depth of your exterior. With its sophisticated yet understated look and refined finish, Nickel Gap siding elevates the overall appearance of your home.

## HORIZONTAL

Emphasizes width and gives the home a grounded, expansive appearance.

## VERTICAL

Accentuates height and makes your exterior feel more stately and elegant.

### ✓ DESIGN TIP

Both orientations create clean lines and a polished look, but the choice between horizontal and vertical comes down to the visual impact you want to create: Choose horizontal application for a grounded and traditional aesthetic, or vertical to be bold and modern.

*Shown: Bronze Walnut Nickel Gap Siding; Seal Lap with RigidStack, Seal and Umber Trim*

TRADITIONAL

# RABBETED TRIM & CORNERS

Our engineered wood Rabbeted Trim and Corners provide a seamless look that compliments all our siding options and are designed to eliminate unsightly nail heads and caulk.

## WINDOW & DOOR TRIM

Provides a decorative frame around the window, drawing attention to it and adding character to the facade.

## INSIDE & OUTSIDE CORNERS

Gives each angle of your home a consistent, finished look that can either match or contrast your siding color.

## ✓ DESIGN TIP

Trim can be used to accentuate other design elements, such as a band board between siding styles, arched windows, or decorative features. It helps tie together different architectural elements and unify the overall design.

*Shown: White Trim and Arch Trim; Smoky Ash Lap with RigidStack and Staggered Edge Shakes with RigidStack*

*Shown: Terra Bronze Rabbeted Nail Fin Inside and Outside  
Corners, Trim; Lap with RigidStack, and Board & Batten*

MODERN

# ALUMINUM TRIM SYSTEM

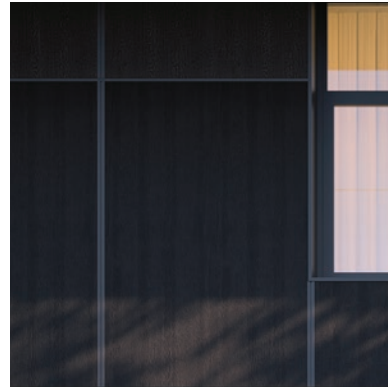

EasyTrim is an aluminum trim system that works best with modern home designs. Its sleek profile creates a clean, uniform design, which is enhanced by its smooth finish.

## CORNERS

Provides a minimal, industrial look.

## TRANSITIONS

Acts as a sleek transition between Panel Siding.

## ✓ DESIGN TIP

Elevate your exterior by incorporating contrasting trim and transitions between DuoBlend Premium panels. This bold approach creates a visually striking mixed-material look with refined trim accents.

*Shown: Dune Panel; Onyx EasyTrim; Sierra Custom Color Lap with RigidStack; Sand Lap with RigidStack*

SEAMLESS

# INDIVIDUAL METAL OUTSIDE CORNERS

Designed to blend in seamlessly with each course of siding, Individual Metal Outside Corners feature an understated appearance that works best on smaller houses or those seeking a more seamless look.

## HORIZONTAL

Horizontal grain corners are designed to be used with our Lap Siding.

## VERTICAL

Vertical grain corners are designed to be used with our Straight Edge Shake Siding.

### ☑ DESIGN TIP

Utilizing Individual Metal Outside Corners, especially in compact spaces like dormers or corners with unique angles, achieves a sleek, more cohesive look, and contributes to a modern and minimalist design aesthetic.

*Shown: Smoky Ash Lap with RigidStack and Individual Metal Outside Corners*

## ACCESSORIES

# RIGIDMOUNT™ BLOCKS

Complete the look of your home with RigidMount™ Blocks that perfectly match your exterior. Designed with the same cedar graining as your siding, they effortlessly blend in with any home style while providing practical protection for outdoor fixtures.

### SPLIT BLOCK

Designed with a unique joint that fits around water, gas, and electrical conduits.

### UNIVERSAL BLOCK

Ideal for mounting items such as exterior lighting and intake/exhaust vents.

### HORIZONTAL BLOCK

Features a wide design allowing for easy pass through for HVAC piping.

### ✓ DESIGN TIP

Make your house numbers as distinctive as your home's siding with the Personalized RigidMount™. Crafted to seamlessly integrate with your exterior, these house numbers allow you to make a statement while maintaining a cohesive design.

*Shown: Coffee Personalized RigidMount Block*

## ACCESSORIES

# PORCHES & OVERHANGS

With a matching woodgrain and finish, our Soffit, Fascia, and Pro-Post Wrap™ work in harmony with the rest of your exterior to elevate your home's aesthetic cohesion.

### SOFFIT

Beautiful cedar texture and proper ventilation will help with completing the look of your home.

### FASCIA

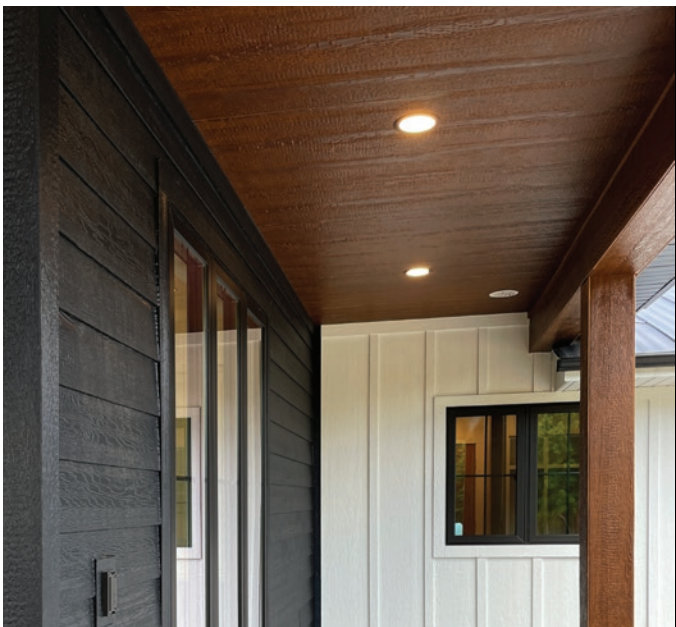

Fascia seamlessly integrates with the soffit and roof to enhance the overall cohesiveness of your exterior.

### PRO-POST WRAP™

Set the stage with a grand entrance for your home or add finishing touches to a deck or porch.

### ✓ DESIGN TIP

Panels can be used as siding or as accent soffit. Opting for a DuoBlend Premium color adds increased depth and visual interest to an otherwise overlooked area. This approach enhances the aesthetics of your outdoor space and creates a welcoming atmosphere for guests.

*Shown: Canyon Panel, Trim, and Pro-Post Wrap™; White Board & Batten and Trim; Onyx Lap with RigidStack, Outside Corner, and Trim*

*Shown: Olive Board & Batten, Trim, and Outside Corners; Onyx Pro-Post Wrap and Fascia*

## WEATHERPROOFING

# MOISTURE MANAGEMENT

Ensure your home is protected from moisture intrusion and air leakage with Diamond Kote's Moisture Management System and Flashing collection. These products work behind the scenes to make your home more energy efficient by protecting and sealing the exterior of your home from the elements.

Moisture intrusion can lead to rot, mold growth, and even structural issues if left untreated.

Diamond Kote's collection of building wrap and tapes works hard behind the scenes to seal your home from moisture, protecting it against costly damage and ensuring lasting beauty and durability for decades to come.

### ✓ DESIGN TIP

Ask your builder about Diamond Kote flashings. Our flashings are color-matched and expertly finished to blend seamlessly with your siding, so you won't even notice they're there while they work to protect your home from moisture.

*Shown: Midnight Board & Batten and Brickledge Flashing*

## SIDING SYSTEM

## ✓ DESIGN TIP

Many modern homes have posts, beams, and other accents made from solid wood. Match your stain to a DuoBlend color to create a seamless home exterior.

*Shown: Graphite Lap with RigidStack, Chestnut Board & Batten (used as porch ceiling)*

## CEDAR & BRUSHED SMOOTH FINISHES

# CHOOSE THE PERFECT TEXTURE

Customizing your dream exterior doesn't just include siding colors and styles. Texture adds another key dimension to the final aesthetic. Diamond Kote offers two distinct textures, cedar and brushed smooth, allowing your home to feel rustic, modern or anything in between.

**Brushed smooth** texture delivers a timeless, minimalist look with a consistent, **uniform appearance**.

**Cedar** texture provides the traditional look of **natural wood** with added depth and warm appeal.

Shown: Glacier Fog Board & Batten; Coffee Lap – Brushed Smooth  
Shown Below: Olive Board & Batten – Cedar

Beyond style and color, the often overlooked selection of **texture** provides a further **dimension of customization** to pinpoint the perfect aesthetic for your exterior.

Diamond Kote is the total design solution that shows your personal style with endless styles and colors.

- ✓ Take the guesswork out of creating a color palette with over 20 palettes created by an exterior designer.
- ✓ Diamond Kote's Home Visualizer tool allows you to design your exterior and make color and product decisions in minutes.
- ✓ Download our design guide to learn about designer theories to create palettes and add texture to exteriors.

Browse designer curated palettes and visualize the home of your future.
