OUR FAIRWAY RAILING IS

Designed for *Style*. Built for **Performance**.

A perfect blend of design versatility, precision craftsmanship, and the highest safety standards has led our Fairway Railing Collection to be a top choice in deck and porch railings for more than 20 years.

“ What we like about working with Fairway Railing is the great customer service from the company and their reps. They also really thought about the installers when they designed their railings. The railings are great to build and come with all the parts you need and even some extra hardware.

We just completed a project using Fairway's black aluminum railings. It's our favorite railing project to date. The posts were great to work with and even had set screws to help micro adjust the posts to plumb.

JOURDAN DARROW
True North Renovations Inc

DID YOU KNOW?

Crafted using a composite foam technology process, TAM-RAIL is made with much thicker, profile walls than traditional vinyl or PVC products.

1

OUTER LAYER
is made from durable cap stock for an attractive look that is weather resistant and low maintenance.

2

MIDDLE LAYER
is an innovative composite wood and foam core that adds stiffness.

3

INTERIOR LAYER
is formulated for impact resistance, offering a protective and sturdy base.
